

Interfaces and Data Exchanges in Use at Harmony Mills

In this increasing era of healthcare connectivity, multiple organizations have access to your and your child(ren)'s healthcare data. While you have control of this access to third parties, those involved in directly providing the care (such as the doctor who prescribes a medication and the pharmacy who fills it) will communicate directly electronically without the involvement of any human.

Harmony Mills maintains Business Associate Agreements with all the following organizations to codify the limitations of data exchange and ensure that privacy laws are followed. These organizations are typical of the types of organizations accessed by all physicians offices who participate in insurance and use electronic records.

By bringing your child to Harmony Mills Pediatrics, you consent to the bidirectional exchange of data, always in a manner covered by HIPAA and in keeping with our privacy policies, with the following organizations:

- The pharmacy/pharmacies you designate to receive your prescriptions
- The insurance interface of all prescriptions filled in your child's name (accessed automatically by the electronic health record)
- The New York State Immunization Information System (NYSIIS) is accessed by both Harmony Mills Pediatrics and the school district and contains a report of all vaccines given by this and all other offices in New York State
- Athena Health, a private company who provides our cloud-based electronic health record.
- Dulcian Health, a private company who assists us with the electronic preparation of care plans
- The New York State Delivery System Reform Incentive Program (DSRIP), and Medicaid of New York State, who monitor the quality of all care provided out of this office, which includes data on both patients with Medicaid and those without.
- Your health insurance company

In addition, Harmony Mills participates in the HIXNY healthcare data exchange that serves every patient and provider in upstate New York. Although we find HIXNY a very valuable way to receive and share information with other doctors, we only access it for patients whose consent is on record. Further information on that particular data exchange is provided on the next page and a consent form is provided in registration packet. However, even if you decline participation in HIXNY, receiving care at Harmony Mills does mean that your data will be exchanged with the organizations listed above.
